

# Marketing SPY - How competitors speak to customers

---

## Kraken

Communication with customer: know what to show to customers.

Optimize messages, reduce irrelevant ones, deliver the right ones at the right moment.

---

ING competitors all communicate the same things to customers in different ways and styles:

- reproducible and structured way to compare competitor campaigns?
- identify pattern in competitors communication style?
- measure and prove difference (and outcomes maybe) of different communication?
- solution to solve the business problem
- how: plenty of possibilities (must be compliant, fair, unbiased, reproducible)
- convince on impactfulness and value of the found solution
- POC (no prod): define clearly the scope

Highlight what competitors are doing differently compared to ING.
